WHY IT PAYS OFF

Zero service calls, uninterrupted irrigation, less rutting and compaction — better yields. Season after season, for 10 years.

WHAT GROWERS SAY

We replaced 20% of our tires with Galileo airless pivot tires. And I have no more problems.

Timothy Thies, Thies Farms, Nebraska

My 2 corner systems, and they are the worst for getting through ruts. Galileo tires completely eliminated pivot downtime.

Kerry Knuth, Knuth Farms, Nebraska
